

## Teflex/Teflex NP – Food Compliance

*NOTE: This statement is made on the information provided to us by the material supplier and corresponds with our actual knowledge. BFM® Global uses the Teflex/Teflex NP material to manufacture our Teflex/Teflex NP connectors, however, we cannot guarantee the suitability of the material for any given application and assume no liability in connection with the information provided below.*

18 MAR 2019

BFM® Global's Teflex/Teflex NP products are manufactured as Food Grade products and meet the guidelines for:

- (EU) No. 10/2011 - Plastic materials and articles intended to come into contact with food
- (EU) No. 1282/2011 - Plastic materials and articles intended to come into contact with food
- (EU) No. 1183/2012 - Plastic materials and articles intended to come into contact with food
- (EC) No. 1935/2004 – Materials and articles intended to come into contact with food
- 2002/72/EC – Materials and articles intended to come into contact with foodstuffs

Teflex/Teflex NP also complies with the applicable requirements of the pertinent sections of the Code of Federal Regulations (CFR) of the US Food and Drug Administration (FDA) as described below:

- 21CFR177.1550 – Perfluorocarbon resins used as articles or components of articles intended to contact food.
- 21CFR178.3297 – Acceptable colorants for polymers used in articles intended to contact food.

In accordance with REACH regulations, BFM® Global Ltd confirms that these products do not contain any of the 169 substances on the Candidate list of Substances of Very High Concern nor any of the 31 substances on the authorization list as published on the ECHA web site as of December 1, 2016.

BFM® Global Ltd also confirms that, to our current knowledge, Teflex/Teflex NP does not contain any of the 6 RoHS restricted substances in electrical and electronic equipment as published on the NMO web site as of December 11, 2016.

Teflex/Teflex NP is manufactured without the use of PFOA. Additionally, the raw materials used to produce Teflex/Teflex NP is manufactured using materials that were also produced without the use PFOA.
